Explanatory notes:

This fauna list provides a summary of confirmed fauna species records for the City of Gold Coast local government area based on existing knowledge at the time of this version of the list. This fauna list was compiled by City of Gold Coast officers. Expert input provided for this version of the fauna list by Jason Searle, Hans Beste, Greg Czechura, Bill Flenady, Ian Gynther, Jean-Marc Hero, Harry Hines, Stephen Phillips, Gunther Schmida, Luke Shoo, David Stewart, Paul Walbridge, Marnie Horton, Damian White, Doug White, Clyde Wild, Steve Wilson, Stephen Van Dyck and Mike Hall is gratefully acknowledged.

Scientific and Common names

Scientific and common names for birds derived from "Birds Australia Checklist", Birds Australia (2008). Scientific and common names for all other fauna species derived from the "Australian Faunal Directory", Australian Biological Resources Study (2010), Atlas of Living Australia, National Research Infrastructure of Australia (2018) and referenced literature below.

Qld Status

Conservation status as listed under the Queensland *Nature Conservation Act 1992*, and is current at the date of this version of the fauna list. Exotic and translocated species have also been indicated in this column for convenience.

EPBC Status

Conservation status as listed under the *Environment Protection and Biodiversity Conservation Act 1999*, and is current at the date of this version of the fauna list.

CWS

City-wide significance for conservation. For this version of the fauna list, this rating has largely been applied on the basis of the status of a species under relevant Queensland, Federal, and New South Wales legislation, scientific criteria, species with a distribution considered significant to the Gold Coast, and expert panel input for each faunal group.
